- 05 Introduction to Adrian Siah
- 06 Approval of items
- 07 Financial Statements and Reports
- 08 Resolutions
- 09 Other Business

01

Chairman's Welcome

02

Notice of Meeting (taken as read)

Submitting Questions

Today's meeting is being held online via the Lumi platform. This allows shareholders, proxyholders and guests to attend the meeting virtually. All attendees can watch a live webcast of the meeting. In addition, shareholders and proxyholders have the ability to ask questions and submit votes.

Questions can be submitted at any time. To ask a question press on the speech bubble icon. This will open a new screen. At the bottom of that screen there is a section for you to type your question. Once you have finished typing please hit the arrow symbol to send.

Please note that while you can now submit questions, these will be addressed at the relevant time in the meeting. Questions relating to each resolution will be addressed at the time the resolutions are put to the meeting. For procedural efficiency, questions about the Company or its management will be addressed when formal part of this Meeting has been concluded.

Please also note that your questions may be amalgamated together if we receive multiple questions on one topic. We will answer as many questions as possible in the time available.

Voting

Voting today will be conducted by way of a poll on all items of business. In order to provide you with enough time to vote, polling on the resolutions is open now.

If you are eligible to vote at this meeting, a new polling icon will appear. Selecting this icon will bring up a list of resolutions and present you with voting options. To cast your vote simply select one of the options.

There is no need to hit a submit or enter button as the vote is automatically recorded.

You do however have the ability to change your vote, up until the time I declare voting closed at the end of the meeting.

The Company will also be submitting an additional Resolution in accordance with Section 250R of the Corporations Act to approve the appointment of RSM Partners Australia as auditor of the Company.

04

Managing Director's Report

EGL

The Environmental Group Limited

Baltec IES supports the gas turbine industry in its role in assisting the transition from coal-powered to renewable energy production.

TAPC designs, manufactures and services flue gas treatment systems which prevent harmful contaminants being discharged into the atmosphere.

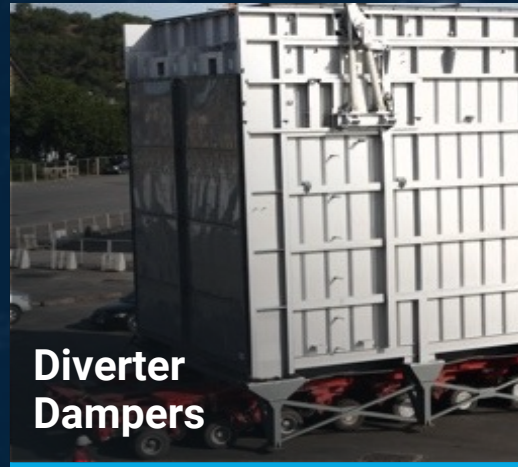

Tomlinson Energy Service offers a network of service offices across Australia providing 24/7 service, maintenance and repairs of both proprietary equipment and other OEM equipment.

Australia's leading water treatment innovators. Combining world-class expertise, targeted R&D and superior technology, EGL Water meets the water problems of today and tomorrow.

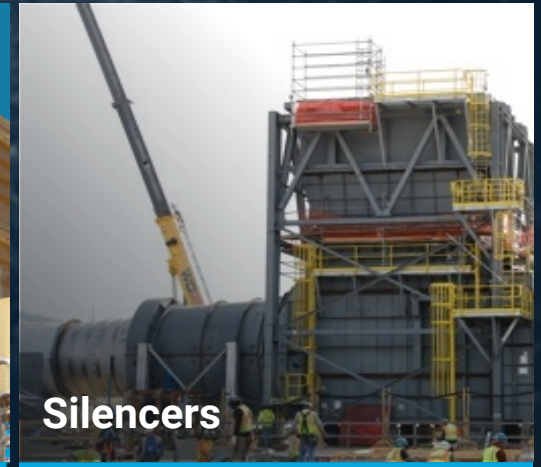

Key Products

Diverter Dampers

Inlet Filter Houses

Silencers

Bypass and HRSG Exhaust Stacks

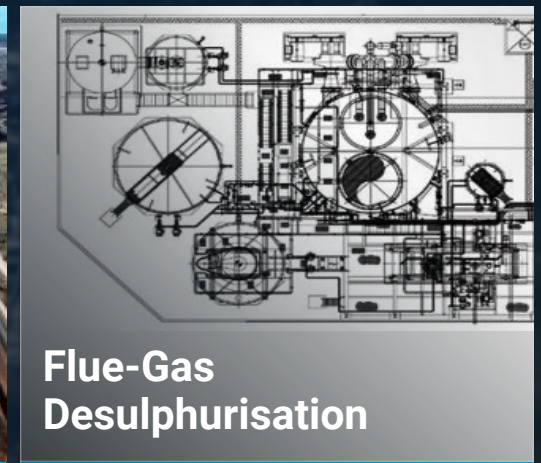

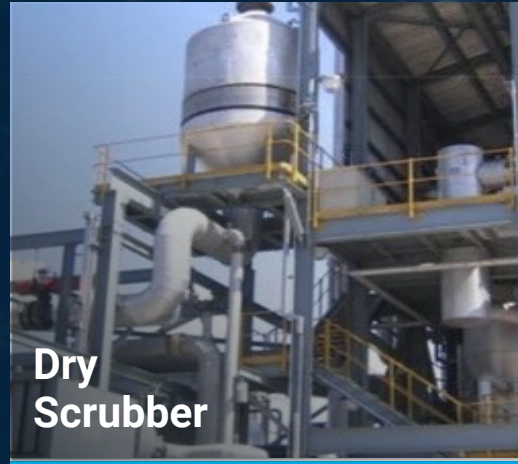

Guillotine Dampers

Heating and Cooling Systems

Key Products

Key Products

Industrial Steam Boilers

Industrial Package Burners

Large Commercial Hot Water Boilers

Thermal Oil Heaters

Biomass Steam and Hot Water Generation

One of the most exciting company's in EGL.

EGL Water's PFAS separation and destruction Technology is a viable solution for treating PFAS in contaminated groundwater, surface water, stormwater, wastewater and soil washing.

Preliminary patent will provide intellectual protection in most countries where PFAS is or is expected to be an issue.

PFAS is a growing concern with successful litigation, and increased government intervention in an attempt to reduce the harmful impacts.

Site visits with prospective clients and the testing of contaminated samples are expected to result in RD&D contacts as a fore runner of commercialisation.

Year to Date Results*

\$5M

Revenue up by \$5M, a 40% improvement on the same period last year.

27%

Overheads are reduced by 30% over the same four month period.

\$900K

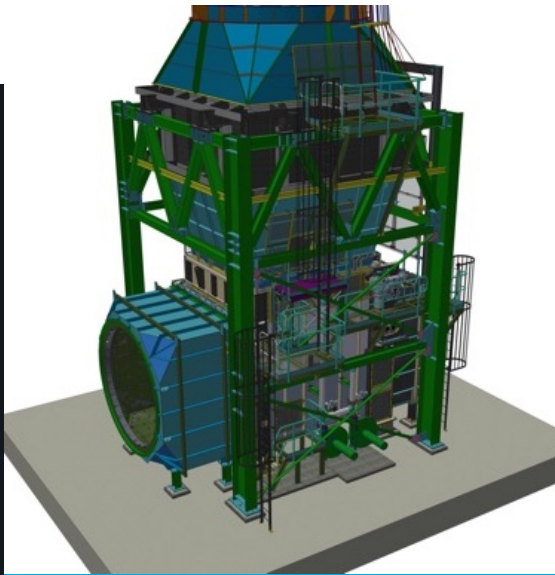

EBITDA, a turnaround from a loss of \$300,000 to a profit of \$900,000.

* 31 October 2020. Unaudited

EGL Expert Teams

Other Business

Mr Dean Dowie

The board and staff of EGL would like to wish Dean all the very best in his new role as CEO WTT Australia and to thank Dean for his contribution to the Group in the roles of interim CEO, Managing Director and Director.

We look forward to a continued commercial relationship in the coming years and wish Dean all the best both personally and professionally for the future.

In light of Deans retirement the board is currently undergoing a search process to identify a new independent director to compliment the current board skill set and with a view to future needs.
