Completion of acquisition of Active Environmental Solutions Pty Ltd

The Board of The Environmental Group Limited (**ASX: EGL**) is pleased to announce the completion of the acquisition of Active Environmental Solutions Pty Ltd ACN 646 037 327 (AES) yesterday.

The relationship AES has with international industrial companies, provides EGL with exciting opportunities to pursue a commercial arrangement with a European company which could result in EGL representing that partner's interests in Australia and carrying out engineering and consultancy services. Commercial-in-confidence negotiations are ongoing as at the date of this announcement and no binding contracts have been agreed.

This announcement has been authorised for release by the Board.

About EGL

EGL has four business units, all committed to the protection of the environment by improving air quality, reducing carbon emissions, enhancing waste to energy production and lifting water quality.

- **Total Air Pollution Control** has a range of technologies which reduce dust, odours and harmful gasses from the environment.
- **Baltec IES** produces inlet and exhaust systems for gas turbines, which are used to complement and augment solar and wind energy production, without the use of rare mineral battery resources.
- **Tomlinson Energy Service** division is an essential link in our strategy to build a bio/waste to energy platform.
- **EGL Water** division continues to develop our patented technologies in conjunction with Victoria University. EGL recognises that one of the world's most valuable assets is water and will persist in our vision to reduce water pollution, leading to an improved environment, through low cost technology solutions.
