

High-Performance Packaged Boiler

Australia's largest certified
package boiler company.

**The Environmental
Group Limited**
Engineering a Sustainable Future

The Environmental Group Limited

www.environmental.com.au

Working across the Circular Economy

Our Purpose

Engineering a sustainable future.

Our Mission

To enable our clients to contribute to a cleaner environment by safely delivering pivotal solutions while generating value for our shareholders, staff, and partner industries.

Our Team

Our local experts are dedicated to reducing waste and boosting energy performance. Trusted worldwide to provide the highest standards of service and support.

Tomlinson Energy Services

Part of The Environmental Group

Tomlinson Energy Services is Australia's leading provider of packaged boiler solutions, delivering the highest combustion efficiency to keep operating costs low and performance high.

We specialise in custom design, installation, commissioning, and national servicing and repairs, complemented by our 24/7 emergency support.

With offices and a dedicated service team across Australia, Tomlinson Energy Services ensures boilers operate at peak performance for maximum efficiency and reliability.

Offering Industry Leading Boilers

Fulton radically challenges the industry status quo resulting in game-changing new boiler designs including the VSRT Boiler and the ENDURA+ boiler, culminating in more than 25 new patents worldwide.

Fulton has maintained a reputation for quality and excellence since 1949. From Steam and Hydronic boilers to Thermal Fluid Heaters and Custom Engineered Systems, Fulton has a product for virtually any industrial or commercial heating application.

FULTON PRODUCT LINE CARD

CLASSIC*

Proven Reliability • Simple, Compact, Trouble-free

Fulton's original vertical tubeless boiler with over 100,000 units sold around the world in virtually every type of industry.

SIZE RANGE: 4 BHP 60 BHP

*Manufactured by Fulton Boiler Works, LLC.

VSRT

Industry's Smallest Footprint • Highest Steam Quality

The world's first fully wetted, refractory-free, Vertical Spiral-Rib Tubeless boiler.

SIZE RANGE: 9.5 BHP 125 BHP

VSRT-E

Hybrid Gas & Electric • LoNOx Certified

The VSRT-E combines the industry leading performance of VSRT gas fired steam boilers with zero-emissions electric heating to meet dual-fuel and sustainability goals.

SIZE RANGE: 9.5 BHP 40 BHP 60 BHP

VSRT-250

Industry Leading Efficiencies • Compact Footprint

Rapid steaming, unmatched warranty, lowest Total Cost of Ownership.

SIZE RANGE: 250 BHP

VMP

Heavy-Duty Design • No Tubes to Replace

Proven through decades of successful installations to provide exceptional value over the lifetime of the boiler.

SIZE RANGE: 40 BHP 150 BHP

FBS

Best-in-Class Efficiency • Capable of Meeting All Emission Standards

Designed with standard features to ensure long lifetime, reduces downtime, and increases your overall system efficiency.

SIZE RANGE: 60 BHP 1,000 BHP

FBX

Best-in-Class Efficiency • Rugged Construction

FBX boilers can be configured to match a wide variety of design specifications, including burner packages for multiple fuel types

SIZE RANGE: 30 BHP 900 BHP

FB-E

Compact Design • Nearly 100% Efficient

Clean-running, combustion-free electric boiler built to ASME M Stamp featuring a design pressure of 100 PSI.

SIZE RANGE: 1.2 BHP 18 BHP

FB-L

Quiet Operation • Zero NOx Emissions

Precise heat-to-steam ratio achieving operating pressures quickly and with maximum efficiency.

SIZE RANGE: 1.2 BHP 100 BHP

FB-W

Zero Emissions • Combustion-Free

Our hot-water electric boiler feature fully-insulated pressure vessels for minimal radiation losses, and our signature rugged design.

SIZE RANGE: 12 kW 1000 kW

ANCILLARY EQUIPMENT

Deaerators, Feedwater Tanks, Blowdown Tanks, and Water Softners

Means to preheat feedwater, collect condensate, handle blowdown water, and water treatment solutions are required to ensure system durability and reliability for all steam systems.

ENGINEERED SYSTEMS

Turn-Key Systems • One-Stop-Shopping

Our team will design and build a complete skidded system, ready to ship, saving you time and money.
